The Minister for Communities and Tackling Poverty (Jeff Cuthbert): To date, £53,377.52 of Employer Support Grant funding has been paid to Enterprising Employment (Wrexham) Limited.

The amount of grant paid depends on how much the business pays its employees whose posts the grant supports. The grant is available for posts offered to disabled former Remploy staff who lost their jobs through the UK Government's decision to close Remploy factories in 2012/13. The maximum award period is for four years. The grant is paid retrospectively, and only if the business provides evidence of expenditure having been defrayed in accordance with the grant rules.

Mark Drakeford: Since introduction of the Blood Borne Viral Hepatitis Action Plan for Wales, all Health Boards with hepatitis treatment centres in Wales now have a designated clinical lead to take forward local implementation. Additional clinical nurse specialists and other support staff have been recruited to take forward service development. The establishment of these clinical teams, alongside other work undertaken to raise awareness of the disease amongst at risk groups and offering better training opportunities for healthcare and other relevant staff, is having a positive impact on services across Wales. Collection of activity data for treatment centres started in 2011 and is published by Public Health Wales. This indicates that in 2011, over 600 individuals were referred to specialist services for assessment for hepatitis C infection and nearly 200 individuals were commenced on treatment. Data for 2012 is currently being collated and will be published in due course.

The clinical networks set up under the Action Plan have established links with a range of local agencies which homeless people and others in hard to reach groups are able to access. These include third sector organisations, statutory and non-statutory substance misuse services and housing services.
