FOREWORD

STATUTORY BACKGROUND

1. The account for 2019-20 shows:
   a. sums received by the Welsh Ministers in 2019-20
      i. under Section 54 in respect of non-domestic rates paid by ratepayers on the central rating list;
      ii. under paragraph 5(5) in respect of the provisional amount of non-domestic rates estimated by Billing Authorities to be collectable in 2019-20;
      iii. under paragraph 5(9) in respect of the additional rates collected by Billing Authorities following the calculation of the final amounts of non-domestic rates due for 2018-19 and previous years, and from ratepayers on the central rating list following recalculations of amounts due; and
   b. payments made by the Welsh Ministers in 2019-20
      i. under paragraph 5(10) in respect of the repayments to Billing Authorities of excess contributions following the calculation of the final amounts of non-domestic rates due for 2018-19 and previous years, and to ratepayers on the central rating list following recalculations of the amounts due; and
      ii. under paragraph 12 in respect of non-domestic rates distributed to Receiving Authorities in proportion to resident adult population.

2 Except where otherwise specified all references to “paragraphs” relate to paragraphs of Schedule 8 to the 1988 Act.

3 “Billing Authorities” are the County and County Borough Councils. “Receiving Authorities” are Billing Authorities and Police and Crime Commissioners.
2. Related accounts concerned with this expenditure are the Welsh Government Consolidated Accounts for the Welsh Ministers for the period 1 April 2019 to 31 March 2020.

**Pooling and Distribution of Non-Domestic Rates**

3. The Welsh Ministers receive non-domestic rates collected from ratepayers by Billing Authorities or paid directly to the Welsh Ministers by ratepayers on the central rating list. The Welsh Ministers are required to distribute the contributions to Receiving Authorities in proportion to the resident adult population (aged 18 or over) in each administrative area (Local Government Finance Reports 2019-20, No’s 1 and 2, Section 4.1). All non-domestic rates are thus pooled and distributed. The operation of the pool is governed by Schedule 8 to the 1988 Act and regulations made under section 141.

4. Sums required for the making of payments by the Welsh Ministers for the distribution of non-domestic rates are to be charged on the Welsh Consolidated Fund. Welsh Ministers’ receipts of non-domestic rates are to be surrendered to the Welsh Consolidated Fund (section 120 of the Government of Wales Act 2006). However, in order to avoid unnecessary cash transfers between the Welsh Government and Billing Authorities, only net payments are made. The account shows as items of account all the non-domestic rates entitlements and liabilities which have been discharged and not just the net cash sums received or paid out.

**Receipts from Billing Authorities (receipts less costs of collection)**

5. A Billing Authority’s contribution into the non-domestic rates pool represents the amount which would be payable by ratepayers in the authority’s area if the authority acted diligently, after allowing for certain prescribed deductions (e.g. costs of collection and recovery). A provisional calculation of the amount is made before the start of the financial year. The Welsh Ministers would make their own calculation if they believed a Billing Authority’s calculation was unlikely to have been made in accordance with regulations (made under paragraph 4). A Billing Authority may recalculate its provisional contribution during the year if the amount payable by ratepayers falls below the level of the prescribed threshold. The Welsh Ministers then have to adjust the Billing Authority’s payments accordingly.

**Prior Year Adjustments**

6. After the end of the year, each Billing Authority has to calculate its actual contribution, arrange for it to be audited and send a copy of the unaudited claim form to the Welsh Ministers. The appointed auditor then undertakes the audit and forwards the original claim, certified and audited to the Welsh Ministers. On receipt of the audited claim, any necessary adjustments are made to the Billing Authority’s payments to accord with the calculation, either by refunding any sum overpaid or requiring additional payments from the authority as appropriate. The prior years’ adjustments shown in this account relate to 2018-19 and previous years. The adjustments for 2019-20 will appear in the 2020-21 non-domestic rating account.
7. Any subsequent changes to the amount payable to the Billing Authority in the relevant financial year (which might occur for example because of appeals which may retrospectively alter rateable values) are treated as prior year adjustments to the pool contribution for a subsequent year.

Distribution of the Pool

8. An amount equivalent to the Welsh Ministers' estimate of the yield of non-domestic rates is distributed to Receiving Authorities each year. The sum to be distributed is calculated by the Welsh Ministers before the beginning of the financial year using estimates of the items to be credited and debited to the account in the year. This is the distributable amount. It is unlikely the aggregate of payments into the pool in any one year would exactly equal the distributable amount. Any surplus or deficit on the account is carried forward.

REVIEW OF 2019-20

9. In 2019-20, the Welsh Ministers received £1,034 million of non-domestic rates and paid £1,091 million to Receiving Authorities. The account for the year shows a surplus of contributions over amounts distributed of £44 million.

11. The deficit of £4 million brought forward from 2018-19 has been offset against the total surplus of £44 million for 2019-20. The surplus carried forward at 31 March 2020 is therefore £40 million. The surplus or deficit at the end of each year is taken into account in the calculations for the following year so that, over time, all the sums paid into the non-domestic rates pool are distributed to Receiving Authorities.

Auditors

12. The non-domestic rating account is audited by the Auditor General for Wales.

Shan Morgan
Permanent Secretary and Principal Accounting Officer
Welsh Government
28 October 2020
STATEMENT OF ACCOUNTING OFFICER’S RESPONSIBILITIES WITH RESPECT TO THE ACCOUNT

13. Section 129(6) of the Government of Wales Act 2006 designates the Permanent Secretary as Principal Accounting Officer for the Welsh Ministers. The Principal Accounting Officer is responsible for the overall organisation, management and staffing of the Welsh Government. This includes responsibility for Welsh Government-wide systems in finance and other matters, where these are appropriate, and for the management of the Welsh Ministers’ net cash requirement.

14. Under Schedule 8 of the Local Government Finance Act 1988, the Welsh Ministers are required to produce a non-domestic rating account. Under The Welsh Ministers (Transfer of Functions) Order 2018, the Welsh Ministers may keep the account in such form as they consider appropriate. Responsibility for preparing and signing the account rests with the Principal Accounting Officer. The account is required to properly present the receipts and payments for the financial year and the balance held at year end.

15. Under Section 133 of the Government of Wales Act 2006, the Principal Accounting Officer may designate other members of the Welsh Government staff as Additional Accounting Officers. The Principal Accounting Officer designated the Director General for Education and Public Services as Additional Accounting Officer for the non-domestic rating account from 12 January 2018. This designation does not detract from the Permanent Secretary’s overall responsibility regarding the non-domestic rating account as Principal Accounting Officer.

16. The responsibilities of an Accounting Officer, including responsibility for the propriety and regularity of the public finances for which the Accounting Officer is answerable, for keeping proper records, for safeguarding the Welsh Government’s assets, and for taking reasonable steps to prevent and detect fraud and other irregularities, are set out in the Accounting Officers’ Memorandum issued by the Principal Accounting Officer based on the guidance produced by HM Treasury.

17. The relationship between the Principal Accounting Officer and the Additional Accounting Officers, as described in paragraph 15 above, and their respective responsibilities are set out in a written agreement between the officials concerned.
GOVERNANCE STATEMENT 2019-20

Scope of Responsibility

18. As Principal Accounting Officer, I am responsible for ensuring there is a high standard of probity in the management of public funds. In discharging this duty, I am responsible for maintaining a sound system of internal control which supports the achievement of the Welsh Government’s policies, aims and objectives, facilitates the effective exercise of the Welsh Ministers’ functions, and includes effective arrangements for the management of risk.

19. The system of internal control is designed to manage risk to a reasonable level rather than to eliminate all risk of failure to achieve policies, aims and objectives. It can, therefore, only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of the Welsh Government’s policies, aims and objectives, to evaluate the likelihood and impact of those risks being realised and the processes to manage them efficiently, effectively and economically.

20. The system of internal control was in place for the year ended 31 March 2020 and up to the date of approval of these accounts, and accorded with HM Treasury guidance.

Financial Devolution of Non-Domestic Rates and Ministerial Responsibilities

21. The financial devolution of non-domestic rates to the Welsh Ministers occurred on 1 April 2015 (policy responsibilities have been devolved since 1999). The revenue from non-domestic rates available to the Welsh Government is now more directly linked to the performance of the Welsh economy. From 1 April 2015, non-domestic rates became Annually Managed Expenditure (AME) in the Welsh Budget (with a consequent reduction to the Departmental Expenditure Limit (DEL)).

22. Following the Assembly elections in May 2016, responsibility for non-domestic rates was assigned to the Cabinet Secretary for Finance and Local Government who, from 3 November 2017, became the Cabinet Secretary for Finance. From December 2018, the Minister for Finance and Trefnydd became responsible for most non-domestic rates matters, including rates policy and the management of the non-domestic rates budget and pool. However, the Minister for Housing and Local Government has responsibility for the distribution of the distributable amount through the annual local government settlements.

Impact of Covid-19 rates reliefs on the non-domestic rating pool

23. The Retail, Leisure and Hospitality Rates Relief scheme for Wales was announced on 19 March 2020 in response to the Covid-19 pandemic. The scheme provides rates relief to eligible businesses from 1 April 2020 to 31 March 2021. The relief scheme will reduce the amounts of non-domestic rates collected by Billing Authorities in the 2020-21 financial year, however funding is being
provided by the Welsh Government to Billing Authorities to replace any loss in rates income.

24. The Retail, Leisure and Hospitality Rates Relief scheme is fully funded by the Welsh Government and utilises consequential funding received from the UK Government. As a result, the relief scheme will have no financial impact on the future distributable amount of non-domestic rates.

The Risk and Control Framework

25. The non-domestic rating account is used to manage a significant component of the Welsh Government funding provided to local government in Wales and, in addition to the audit of this Account by the Auditor General for Wales, it is subject to a number of regulatory and internal control checks.

26. The distributable amounts of non-domestic rates for each financial year are based on estimates of the amounts which will be collected and are set out in the annual Local Government Finance Reports.:  https://gov.wales/sites/default/files/publications/2019-04/final-local-government-finance-report-2019-to-2020.pdf. The reports are subject to Ministerial approval and are laid before the Senedd Cymru / Welsh Parliament. Throughout the financial year, the Welsh Government must also set out adjustments to the legislative requirements for the collection of non-domestic rates. These adjustments are subject to Ministerial approval and must be laid before the Senedd.

27. Other specific controls which apply include:

- The distributable amounts of non-domestic rates are included as part of the Final Budget as a direct charge on the Welsh Consolidated Fund. The amounts represent a material contribution to the overall financing of the Welsh Budget and, as such, are an integral part of the plans which are subject to approval by the Senedd Cymru / Welsh Parliament.

- The estimates of non-domestic rates to be distributed for the forthcoming year and forecasts for future years are provided, together with explanatory notes on sources and methodology, to the Office for Budget Responsibility for consideration and inclusion in its forecasts of UK public finances.

- Throughout the financial year, the amounts of non-domestic rates collected by Billing Authorities are reported to the Welsh Government via formal submissions. These submissions, notably the NDR3 returns, are subject to checks undertaken by external auditors.

- Income and Expenditure relating to non-domestic rates is monitored throughout the financial year as part of the month-end financial monitoring procedures employed by the Welsh Government.
Effectiveness of Internal Control

28. As Principal Accounting Officer, I am responsible for the effectiveness of the system of internal control. I take assurance from a wide spectrum of activities and am informed by the work of the internal auditors and also of the executive managers within the Welsh Government who have responsibility for the development and maintenance of the internal control framework, and for acting on comments made by the Auditor General for Wales in his reports. I have been advised on matters of risk and assurance by the Board and the Audit and Risk Assurance Committee.

29. The Welsh Government has an Internal Audit Service which operates to standards defined in the Public Sector Internal Audit Standards. It undertakes a programme of audit work based upon an analysis of the major risks facing the organisation as a whole. For the year covered by this Governance Statement, no pieces of audit work undertaken were specific to non-domestic rates but the processes and procedures in this area exist in a control environment which has been subject to internal audit and which has been judged to be effective.

30. The Head of Internal Audit submits regular reports to the Welsh Government Audit and Risk Assurance Committee (ARAC) on progress in implementing her annual audit plan. There is also a separate Education and Public Services ARAC in place which feeds assurances to the main Welsh Government ARAC. The Internal Audit Service also prepares an annual independent opinion on the adequacy and effectiveness of the framework of risk management, governance and control. I regularly meet members of the Service to discuss the current activity and specific internal control issues.

31. Throughout the year, the Internal Audit Service continued to coordinate its work with that of Audit Wales. A joint working protocol underpins the approach taken by all parties and liaison meetings are held to share information.

32. For the 2019-20 financial year, the Director General for Education and Public Services had Additional Accounting Officer responsibility for the management of the non-domestic rates budget and pool, including the preparation of this Account.

33. The opinion of the Head of Internal Audit, set out in her annual assurance report, is that, overall, the Welsh Government can take reasonable assurance that arrangements to secure governance, risk management and internal control, within those areas under review, are suitably designed and applied effectively.

34. Drawing on the work of the Audit and Risk Assurance Committee, over the year, the Chair's Annual Report for 2019-20 provided overall reasonable assurance on the adequacy of audit arrangements for the Welsh Government and also on the arrangements for governance, risk management and internal control for the Welsh Government, based on the range of assurances presented to the Committee and the information provided to it by officials.
35. Based on my review of internal controls and all other information available to me, I am satisfied that the non-domestic rating controls in place during the year were appropriate.

**Information Governance**

36. As Principal Accounting Officer, I am responsible for ensuring appropriate arrangements are in place to comply with the core set of mandatory minimum measures to protect information in UK Government Departments and Devolved Administrations. These require me to assess our risk and ensure appropriate mitigation strategies are in place.

37. Information risk management continues to have a high priority throughout the Welsh Government, featuring in departmental risk registers. There were no instances of reported information losses which specifically relate to the non-domestic rating account.

38. Where third parties handle our information, it is vital we tell them how to do so as we often retain legal liability for that information even if it is the third party which releases the information in error. Information assurance clauses which clearly specify how Welsh Government information must be handled are included as a standard requirement in contracts.

Shan Morgan  
Permanent Secretary and Principal Accounting Officer  
Welsh Government  
28 October 2020
The Certificate and independent auditor's report of the Auditor General for Wales to the Senedd

Report on the audit of the financial statements

Opinion

I certify that I have audited the financial statements for the Non-Domestic Rating Account (Wales) of Welsh Ministers for the year ended 31 March 2020 under the Local Government Finance Act 1988. These comprise the Receipts and Payments Account, Statement of Balances and the related notes, including a summary of significant accounting policies. These financial statements have been prepared on a cash basis under Schedule 8 to the Local Government Finance Act 1988 and directions made thereunder by HM Treasury as agreed by Welsh Ministers.

In my opinion the financial statements:

- Properly present the balances, receipts and payments of the Non-Domestic Rating Account (Wales) for the year ended 31 March 2020; and
- have been properly prepared in accordance with Schedule 8 to the Local Government Finance Act 1988 and directions made thereunder by HM Treasury as agreed by Welsh Ministers.

Basis for opinion

I conducted my audit in accordance with applicable law and International Standards on Auditing in the UK (ISAs (UK)). My responsibilities under those standards are further described in the auditor’s responsibilities for the audit of the financial statements section of my report. I am independent of the body in accordance with the ethical requirements that are relevant to my audit of the financial statements in the UK including the Financial Reporting Council’s Ethical Standard, and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Other information

The Principal Accounting Officer is responsible for the other information in the account. The other information comprises the Foreword and Annual Governance Statement. My opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in my report, I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by me in the course of performing the audit. If I become aware of any apparent material misstatements or inconsistencies I consider the implications for my report.

Opinion on regularity

In my opinion, in all material respects:

- the receipts and payments recorded in the financial statements have been applied to the purposes intended by the Senedd; and
• the financial transactions recorded in the financial statements conform to the authorities which govern them.

Report on other requirements

Opinion on other matters
In my opinion, based on the work undertaken in the course of my audit:
• the information given in the Governance Statement for the financial year for which the financial statements are prepared is consistent with the financial statements. I am unable to confirm that it has been properly prepared because directions do not specify its content or form; and
• the information given in the Foreword for the financial year for which the financial statements are prepared is consistent with the financial statements and the Foreword has been prepared in accordance with directions issued by HM Treasury as agreed by Welsh Ministers.

Matters on which I report by exception
I have nothing to report in respect of the following matters which I report to you if, in my opinion:
• adequate accounting records have not been kept; or
• the financial statements are not in agreement with the accounting records and returns; or
• I have not received all of the information and explanations I require for my audit.

Report
I have no observations to make on these financial statements.

Responsibilities

Responsibilities of the Principal Accounting Officer for the financial statements
As explained more fully in the Statement of Accounting Officer's Responsibilities, the Principal Accounting Officer is responsible for preparing the financial statements in accordance with the Local Government Finance Act 1988 in a form considered appropriate by Welsh Ministers, and for such internal control as the Principal Accounting Officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibilities for the audit of the financial statements
My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
Responsibilities for regularity
The Principal Accounting Officer is responsible for ensuring the regularity of financial transactions.
I am required to express an opinion on whether the receipts and payments have been applied to the purposes intended by the Senedd and the financial transactions conform to the authorities which govern them.

Adrian Crompton
Auditor General for Wales

Shan Morgan
Permanent Secretary and Principal Accounting Officer
Welsh Government
28 October 2020
The following notes form part of this Account.

NOTES TO THE ACCOUNT

1 Under paragraph 1 of Schedule 8 of the Local Government Finance Act 1988, the Welsh Ministers are required to prepare an account, to be called a Non-Domestic Rating Account (Wales), for each financial year in such form as the Welsh Ministers consider appropriate. The account is prepared on a cash basis and must properly present the receipts and payments for the financial year and the balance held at the end of the year. The Non-Domestic Rating Account (Wales) is audited by the Auditor General for Wales in accordance with Paragraph 1(4) of Schedule 8 to the Local Government Finance Act 1988.

2 Billing Authorities are required to calculate their non-domestic rates contribution for the year before it begins on the basis of certain prescribed assumptions (the provisional amount: paragraph 5(2) and to make their contribution in regular instalments during the year (paragraph 5(5)). The contributions calculated by Billing Authorities for 2019-20 totalled £1,032 million.

3 After the year end, the contribution is recalculated on the basis of outturn information (paragraph 5(6)) and adjustment payments made to or by Billing Authorities as appropriate.

4 The outturn adjustments made comprised receipts from Billing Authorities of £2.7 million and payments made to Billing Authorities of £30 million.

5 The Welsh Ministers paid out the distributable amount of £1,061 million for 2019-20, as set out in the Local Government Finance Reports for 2019-20. The distributable amount was paid to Receiving Authorities in proportion to their resident adult populations.

6 Whilst the account shows the full amount of contributions from Billing Authorities and the distributable amount, in practice these items are netted off against each other and only net payments are made. This avoids unnecessary cash transfers between the Welsh Ministers and Billing Authorities.

7 As at 31 March 2020, the Central List Receipts Account showed a balance of nil, the total receipts of £100.7 million for the year having been surrendered to the Welsh Consolidated Fund. The Central List Payments Account also showed a nil balance; the sole payment made during the year as a result of an overpayment was offset by funding from the Welsh Consolidated Fund.

8 Surpluses at the end of the year are carried forward by debiting the account for the year and crediting the following year’s account. Deficits at the end of the year are carried forward to the following year by crediting the current year’s account and debiting the following year’s. This is to ensure that, when years are taken together, all non-domestic rates paid to the pool are equivalent to the sums distributed to Receiving Authorities.
