Dear Andrew,

Thank you for your Written Question: WQ88314 - How is the Welsh Government encouraging the public to use bus services?

We have set out in Llwybr Newydd, the Wales Transport Strategy, a comprehensive plan of action to improve the quality and attractiveness of bus services across Wales. Improvements recently introduced include: the introduction of new zero emission electric buses for use on the TrawsCymru T1 service in west Wales; the introduction of new integrated ticketing schemes such as the One Bws ticket in north Wales; the introduction of innovative fflecsi demand responsive bus services; funding to local authorities to enable them to provide passenger facilities at bus stops and key interchanges as well as the further roll out of real-time bus information for passengers across Wales. We are currently procuring a network of better TrawsCymru services for improved services commencing in September and making final preparations to open the new Cardiff Central Bus Interchange which will transform bus travel in Cardiff.

Yours sincerely

Lee Waters AS/MS
Y Dirprwy Weinidog Newid Hinsawdd
Deputy Minister for Climate Change
