*Derbyniwyd ateb i'w gyhoeddi ar 10 Mai 2012*  
*Answer received for publication on 10 May 2012*

**Alun Davies:** "I recognise that the Welsh Government has a leading role to play in increasing the proportion of Welsh Food & Drink procured by the public sector in Wales. My officials have been working closely with Value Wales and with procurement officers from other public sector organisations such as NHS Wales, local authorities and the police in order to maximise the value of the Welsh pound within the Food & Drink Sector in Wales. It is an area which the Food & Farming Sector Panel is considering strongly as it develops its priorities.

The question posed will be more accurately answered following the completion of a survey into public sector procurement which is being commissioned by my officials now. Its findings will be compared to those from a similar survey conducted in June 2010, giving us a very clear picture of progress made on the purchase of Welsh Food & Drink by the public sector in Wales."

**Alun Davies:** It is not possible to isolate the administrative cost for each element of Glastir. The administrative system has been developed to process Glastir applications and claims over the lifetime of the scheme. WAQ58085 provided administrative costs associated with the Glastir agri-environment scheme.

**Antoinette Sandbach (Gogledd Cymru):** A wnaiff y Gweinidog gadarnhau, mewn perthynas â'r cyhoeddiad 'Gwlad' i) yr holl gostau sydd ynghlwm wrth ei gynhyrchu a'i ddsbarthu ym mhob blwyddyn ers ei gyflwyno, a ii) pa mor aml y cafodd ei gyhoeddi ym mhob blwyddyn ers ei gyflwyno. (WAQ60256)

***Derbyniwyd ateb i'w gyhoeddi ar 09 Mai 2012***  
***Answer received for publication on 09 May 2012***

**Alun Davies:** Gwlad was first published in November 2001 following the Foot and Mouth Disease outbreak. Gwlad was created as a vehicle to provide key statutory information to those in the agricultural and forestry industries avoiding the need for frequent and expensive mail drops.

Upon its launch, Gwlad was published 11 times per year. However, in May 2011 [www.gwladonline.org](http://www.gwladonline.org) was launched and the frequency of the publication reduced to 6 times per year. The website has allowed more up to date articles and news to be published without the restriction imposed by print deadlines. The circulation figures for the printed version of Gwlad are approximately 40,000 per edition.

Details of the costs of production and distribution of Gwlad for the past 5 financial years are detailed in this answer. Figures covering years prior to this cannot be compiled easily within the required timeframe

*Derbyniwyd ateb i'w gyhoeddi ar 09 Mai 2012  
Answer received for publication on 09 May 2012*

**Alun Davies:** Discussions are currently underway to identify the detailed requirements of a Welsh database, expected to be known as EIDCymru. The findings of this design phase will be presented to Ministers later in 2012 and will determine the scope and projected costs of the new individual database and associated services.

This is a complex area and there are many potential uses for the database. The partnership approach advocated by Gareth Williams' Working Smarter Report is critical to developing a system that delivers the statutory movement information efficiently. In addition, decisions on the development of EIDCymru will also be mindful of the commercial opportunities that the technology might make available to the industry.

*Gofyn i'r Gweinidog Addysg a Sgiliau  
To ask the Minister for Education and Skills*

**The Minister for Education and Skills (Leighton Andrews):** The information requested is not collected by the Welsh Government. Responsibility for the provision of school meals, which includes

procurement, lies with the local authority or the school governing body where the function has been delegated.

**Antoinette Sandbach (Gogledd Cymru):** A wnaiff y Gweinidog ddatganiad am sut, yng nghyfrifoldebau ei bortffolio, y mae caffael bwyd a diod o Gymru yn lleol wedi cael ei gefnogi yn ystod y Pedwerydd Cynulliad. (WAQ60258)

*Derbyniwyd ateb i'w gyhoeddi ar 14 Mai 2012*  
*Answer received for publication on 14 May 2012*

**Leighton Andrews:** Our Appetite for Life and Primary School Free Breakfast initiatives support local procurement as they seek to embed sustainable development principles into the procurement of goods and services related to delivering improved food and drink in schools.

The guidance for the breakfast scheme encourages local authorities to base their decisions on value for money, and consistent safe supply, at the same time as maximising the opportunities for local suppliers to tender. The Appetite for Life Action Plan and the Appetite for Life Guidelines encourage school meal providers to use resources developed by Value Wales, to help them deliver value for money while promoting sustainable development and opening up opportunities for smaller suppliers. Best practice guidance on food procurement for the public sector in Wales is contained in the Food Procurement Route Planner (PRP) on Buy4Wales. As well as focusing on buying safe food, the Food PRP also encourages local sourcing where appropriate and includes information on supply chain mapping to identify opportunities for smaller producers, making contracts more accessible for smaller firms and reducing food miles.

***Derbyniwyd ateb i'w gyhoeddi ar 14 Mai 2012***  
***Answer received for publication on 14 May 2012***

**The Minister for Finance and Leader of the House (Jane Hutt):** The Welsh Government's All Wales Catering Contract (AWCC) was awarded to Compass Group - Eurest Services in March 2009. This covers the supply of catering services at Welsh Government sites. Whilst public procurement legislation generally prevents stipulating the origin of food products, the Welsh Government is committed to sourcing Welsh produce.

As part of their tender for the AWCC Eurest Services committed to sourcing products from suppliers from the locality of the Welsh Government through their 'Truly Local' initiative. Since contract commencement the Welsh Government has worked with Eurest and has delivered a significant increase in the products and suppliers sourced from within Wales as part of this 'Truly Local' initiative. For the period March 2009 to October 2011 the number of Welsh suppliers used in relation to the AWCC has increased from 5 to 76 and the number of Welsh products has increased from 16 to 315. The Welsh Government is committed to increasing this number in the forthcoming year.

As a direct result of the 'Truly Local' philosophy adopted by the Welsh Government under the AWCC, other Compass Group catering units operating in Wales have also made use of new local suppliers and products. This has increased the turnover of many smaller producers and the AWCC as the instigator of this growth, is seen as a market leader.
