# Key Statistics for Rhondda Cynon Taff

## Abstract

This paper provides key statistics for the Rhondda Cynon Taff Local Authority area, under a number of topic headings.

This is one of a series of Members' Research Service profiles for all Local Authorities in Wales which are updated on a regular basis.

April 2008

# Key Statistics for Rhondda Cynon Taff

## Summary

The following points provide a brief overview of Rhondda Cynon Taff, drawn from detailed statistics in the main body of this paper. Technical terms have been avoided, and in general the reference periods of the statistics are not mentioned as these vary. Details on reference periods can be found in the tables or notes at the end of the paper.

- Around 233,900 people live in Rhondda, Cynon, Taff, which with 552 people per square kilometre is more densely populated than Wales as a whole.
- Between 1996 and 2006, the local authority's population decreased by 0.6%, compared to a 2.6% rise in Wales overall.
- 90% of Rhondda, Cynon, Taff residents were born in Wales and 12% of people aged three or more can speak Welsh. Across Wales, 75% of all Welsh residents were born in Wales and 21% of people aged three or more can speak Welsh.
- Compared to the Welsh average, life expectancy in Rhondda, Cynon, Taff is slightly lower for males and slightly lower for females.
- Around 73% of the working age population of Rhondda, Cynon, Taff are economically active, and 2.3% claim Job Seekers' Allowance. This compares to an economically active population of 75% for Wales, and 2.2% claiming Job Seekers' Allowance.
- At £398, the median(i) weekly pay for full-time workers in Rhondda, Cynon, Taff is around £17 less than the Welsh median.
- Proportionally, more people in Rhondda, Cynon, Taff than in Wales reported having a limiting long term illness (27.2% and 23.3% respectively).
- A lower percentage of adults than in Wales met guidelines for undertaking physical activity, and a lower percentage than in Wales met guidelines for the consumption of fruit and vegetables.
- The rate of people waiting for their first outpatient appointment in Rhondda, Cynon, Taff is 552.1 per 10,000 people. The equivalent rate for Wales is 560.6 per 10,000 people.
- A slightly lower proportion of pupils in their final year of compulsory education achieved five or more GCSEs at grades A\*-C, compared to the figure for Wales.
- There are around 94,600 households in Rhondda, Cynon, Taff, 75.2% of which are owner occupied. This compares to 71.3% for Wales.
- The median(i) house price in 2006 was around £91,000. This was £41,500 less than the Welsh median.
- The rate of accidents per length of road is noticeably higher in the area than the rate for Wales (47.6 per 100 km and 25.5 per 100 km respectively).
- Around 28% of municipal waste was recycled or composted in 2006-07. The percentage for Wales over the same period was 30%.
- The Welsh Index of Multiple Deprivation 2005 ranks specific small areas in Wales in terms of deprivation: 19% of Rhondda, Cynon, Taff's areas fall in the 10% most deprived areas in Wales, and the majority of its areas are more deprived than the Wales average.

(i) The median is the value with half of all values above it and half below (i.e. the middle value).

## Key Statistics for Rhondda Cynon Taff

### Introduction

#### **Background**

This paper provides key statistics for Rhondda Cynon Taff Local Authority area, under a number of topic headings. This is part of a series of Members' Research Service profiles for all local authorities in Wales, updated in April 2008. The Members' Research Service will also update its series of profiles for Assembly constituencies in the near future.

Profiles for constituencies and local authorities will differ from each other. Constituencies do not form a standard statistical geography, so the availability of data at this level is limited; data are more readily available on local authorities. Two local authorities (Blaenau Gwent and Isle of Anglesey) are also constituencies, so as well as the local authority profiles in this series they will have separate profiles in the series for constituencies (which will include electoral statistics).

#### **Structure of this paper**

The preceding summary provides a brief overview of the key similarities and differences between Rhondda Cynon Taff and Wales as a whole. This introduction is followed by a map of the Rhondda Cynon Taff area and reference tables on statistics for seven topic areas. Some charts are included throughout the paper to show trends for selected figures. The information in each table is drawn from several different sources, with details on the sources (including links for further information) and definitions in use listed in the first annex. The tables also provide information on whether data items have been changed since the previous local authority profile. The symbols box below provides more information on this. Finally, the second annex shows a map of information on deprivation in the Rhondda Cynon Taff area.

#### **Symbols**

The following symbols have been used throughout this series of Local Authority profiles:

Status symbols (found in column marked St.)

n New - item was not in previous profile

r Revised - definition of item has changed

u Updated - figure updated since previous profile

Data symbols

. Not applicable

\* Not sufficiently robust or reliable for publication

#### **Sources for further information**

Each statistic shown in this paper is sourced in the first annex. More information is available, and some general sources are described below:

- the Office for National Statistics has produced a report<sup>1</sup> of key statistics from the Census 2001 for local authorities;
- the official labour market statistics website 'Nomis'<sup>2</sup> provides local authority profiles;
- the Neighbourhood Statistics website<sup>3</sup> provides local area statistics;
- the Welsh Assembly Government's Statistical Directorate<sup>4</sup> publishes information on local authorities;
- the Local Government Data Unit Wales<sup>5</sup> publishes some information for local authorities including local government performance indicators.

## Deprivation Statistics

The Welsh Index of Multiple Deprivation 2005 (WIMD<sup>6</sup>) is a measure of deprivation for small areas in Wales. It ranks statistical geographies known as Lower Super Output Areas (LSOAs) in terms of deprivation across various domains such as health and employment, as well as providing an overall deprivation rank. Although WIMD does not provide deprivation ranks for local authorities as a whole it is possible to look at the rank of LSOAs within a local authority.

In Rhondda, Cynon, Taff (which has 152 LSOAs):

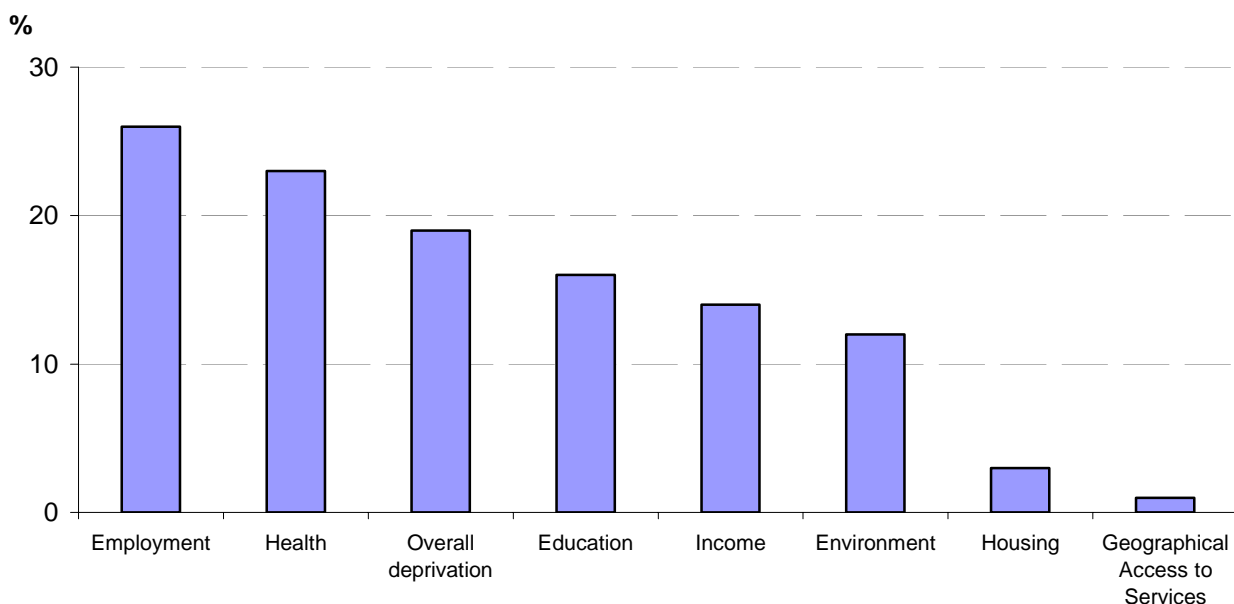

- 29 LSOAs (19%) fall within the 10% most deprived LSOAs in Wales;
- The majority (75%) of LSOAs are more deprived than the Wales average.

In relation to Wales as a whole, this means that a relatively high proportion of areas in Rhondda, Cynon, Taff are among the 10% most deprived, and overall the majority of areas fall in the more deprived half of Wales.

The map of Rhondda, Cynon, Taff in Annex 2 shows LSOAs within the area shaded according to their overall level of deprivation, seen in relation to Electoral Division boundaries.

Figure 1 shows what proportion of Rhondda, Cynon, Taff's LSOAs are in the 10% most deprived in Wales for each individual domain as well as for overall deprivation.

**Figure 1: The percentage of LSOAs in Rhondda Cynon Taff that are in the 10% most deprived LSOAs in Wales, for overall deprivation and by domain, 2005**

Source: [Welsh Index of Multiple Deprivation](#)

For more details on these statistics, please see the WIMD 2005 report for local authorities<sup>7</sup>.

## Annex 1: Sources and Notes

### Small discrepancies in Census statistics

In the sources listed above, similar Census statistics may be available from more than one table, and there are rare but occasional discrepancies in counts between tables. For example the counts of households in table KS16 (household spaces and accommodation type) and KS20 (household composition) differ by one or two households (out of a typical 50,000) for some local authorities. This is usually because cells in tables are randomly adjusted to avoid the release of confidential data.

### Ref Source & Notes

#### Table 1: Population and Vital Statistics

- 1-a StatsWales (tables 003121 and 003122) - 1996 and 2006 mid year estimates of the population  
<http://www.statswales.wales.gov.uk/TableViewer/tableView.aspx?ReportId=3121>  
<http://www.statswales.wales.gov.uk/TableViewer/tableView.aspx?ReportId=3122>
- 1-b Neighbourhood Statistics, 2001 Census: Key Statistics (tables KS01, KS04, KS06A & KS07)  
<http://www.neighbourhood.statistics.gov.uk/dissemination/>  
Area measurements are based on the 2001 version of the Ordnance Survey Boundary-Line data-set, amended where district boundaries have changed since 2001, and do not include inland water. Area is on Census Day (29th April 2001).  
'Non-white ethnic group' includes people from a mixed white-other ethnic group.
- 1-c Figures are constructed from area measurements from 2001 Census table KS01 and mid 2006 estimates of the population.
- 1-d Neighbourhood Statistics, 2001 Census: Key Statistics (table KS05)  
<http://www.neighbourhood.statistics.gov.uk/dissemination/>  
The EU is as defined on Census day (29 April 2001).
- 1-e Neighbourhood Statistics, 2001 Census: Key Statistics (table KS06A & KS25)  
<http://www.neighbourhood.statistics.gov.uk/dissemination/>  
One or more skills in Welsh means speaks, reads, writes and/or understands Welsh.  
Identified as Welsh means those who have written 'Welsh' or 'Cymraeg' or similar in one or more of the write-in boxes in the ethnic group question.
- 1-f StatsWales (table 003311)  
<http://www.statswales.wales.gov.uk/TableViewer/tableView.aspx?ReportId=3816>  
The figures are constructed from the estimated population and total deaths by single year/quinary age each year, based on a three year average. The "expected years of life" is the lifetime of a newborn person, if they were subject throughout their lives to the average recorded death rate of the three year period. Such a calculation excludes future improvements to mortality rates.
- 1-g StatsWales (table 003384)  
<http://www.statswales.wales.gov.uk/TableViewer/tableView.aspx?ReportId=3384>  
Death rate is calculated as the number of deaths occurring in each calendar year per 1,000 residents, estimated at 30 June of each year.
- 1-h StatsWales (table 003396)  
<http://www.statswales.wales.gov.uk/TableViewer/tableView.aspx?ReportId=3396>  
Standardised Mortality Ratios are calculated as the number of actual deaths in each area in a given period of years, as a percentage of deaths which would have been expected if the local population had experienced the age-specific mortality rates in Wales as a whole during that period.
- 1-i ONS, Births 2006  
<http://www.statistics.gov.uk/statbase/Product.asp?vlnk=14408>
- 1-j ONS, Underage conceptions: Numbers and rates by area of usual residence and outcome, 2000-02 and 2003-05  
<http://www.statistics.gov.uk/statbase/ssdataset.asp?vlnk=9571&More=Y>  
Underage means aged under 16 years old. Numbers and rates for 2005 conceptions are provisional.
- 1-k Health Statistics Wales 2007 (table 1.6)

<http://new.wales.gov.uk/topics/statistics/publications/publication-archive/hsw2007/>

Live and still births under 2,500g per 100 births with a stated birth weight.

## Table 2: Economic and Labour Market Statistics

- 2-a NOMIS official labour market statistics  
<http://www.nomisweb.co.uk/>  
<https://www.nomisweb.co.uk/reports/lmp/la/2038432116/report.aspx?town=rhondda>  
Information on economically active/inactive from the Annual Population Survey January - December 2006. Information on the National Statistics Socio-economic Classification is from Census Area Statistics table CAS042. The 3 class version is used, for further details please see the link below:  
[http://www.statistics.gov.uk/nsbase/methods\\_quality/ns\\_sec/downloads/NS-SEC\\_User.pdf](http://www.statistics.gov.uk/nsbase/methods_quality/ns_sec/downloads/NS-SEC_User.pdf)  
Information on employee jobs is from the Annual Business Inquiry employee analysis 2006, included in the Local Authority profile at April 2008. Tourism-related jobs are a subset of the Services category.  
Information on jobs density is from Jobs Density 2005, included in the Local Authority profile at April 2008. Jobs density is the total number of filled jobs in an area divided by the resident population of working age in that area. The number of jobs in an area is composed of jobs done by residents (of any age) and jobs done by workers (of any age) who commute into the area. The working-age population comprises residents of working age who work in the area plus workers of working age who commute out of the area to work in other areas and those who are unemployed or economically inactive of working age.  
JSA claimant counts averaged over the twelve month period January - December 2007.
- 2-b ONS, 2007 Annual Survey of Hours and Earnings (tables 8.1a & 8.7a)  
<http://www.statistics.gov.uk/ashe>  
The median is the value with half of all values above and half below (i.e.: the middle value).
- 2-c Department for Work and Pensions (DWP) Tabulation Tool  
<http://www.dwp.gov.uk/asd/tabtool.asp>
- 2-d DWP, Working age claimants of incapacity benefits, February 2007  
[http://83.244.183.180/100pc/wapop/ccla/ccstatgp/a\\_cnpop\\_r\\_ccla\\_c\\_ccstatgp\\_feb07.html](http://83.244.183.180/100pc/wapop/ccla/ccstatgp/a_cnpop_r_ccla_c_ccstatgp_feb07.html)  
Includes those receiving Incapacity Benefit or Severe Disablement Allowance. Incapacity Benefit is paid to people who are assessed as being incapable of work and who meet certain contribution conditions. Until April 2001, people who were incapable of work and did not satisfy the contribution conditions for Incapacity Benefit could get Severe Disablement Allowance.
- 2-e DWP, Income Support, February 2007  
[http://83.244.183.180/100pc/is/ccla/ccgor/a\\_carate\\_r\\_ccla\\_c\\_ccgor\\_feb07.html](http://83.244.183.180/100pc/is/ccla/ccgor/a_carate_r_ccla_c_ccgor_feb07.html)  
Income Support is intended to help people on low incomes who do not have to be available for employment. The main types of people who receive it are lone parents, the long and short-term sick, people with disabilities and other special groups. Rates are calculated using 2001 Census estimates of numbers of households from <http://www.neighbourhood.statistics.gov.uk/dissemination/> (table KS16).
- 2-f DWP, Pension Credit, February 2007  
[http://83.244.183.180/100pc/pc/ccla/pctype/a\\_benefic\\_r\\_ccla\\_c\\_pctype\\_feb07.html](http://83.244.183.180/100pc/pc/ccla/pctype/a_benefic_r_ccla_c_pctype_feb07.html)  
Pension Credit is designed to help pensioners at the lower end of the income scale by ensuring a guaranteed minimum weekly income (guaranteed credit) and, in addition, to reward those people who have made modest provision for their retirement (savings credit). Rates are calculated using mid-2006 estimates of the population aged 60+, from StatsWales table 003122.
- 2-g DWP, National Insurance Number (NINo) Registrations of non-UK Nationals, 2006-07  
100% sample at 14 May 2007 from the National Insurance Recording System (NIRS). Numbers are rounded to the nearest ten. Local Authority counts are based on the most recently recorded address of the NINo recipient, assigned to an Authority by matching postcodes against the relevant postcode directory.  
Information supplied by DWP. See the following DWP report for further information on NINo allocations made to overseas nationals entering the UK.  
[http://www.dwp.gov.uk/asd/asd1/niall/registration\\_tables2007.xls](http://www.dwp.gov.uk/asd/asd1/niall/registration_tables2007.xls)

## Table 3: Health and Social Services Statistics

- 3-a Neighbourhood Statistics, 2001 Census: Key Statistics (table KS08)  
<http://www.neighbourhood.statistics.gov.uk/dissemination/>
- 3-b Welsh Health Survey, 2004/06  
<http://new.wales.gov.uk/topics/statistics/publications/health-survey200506/?lang=en>

Figures for local authorities are based on a sample of between 1,100 and 2,200 adults.

Results are age-standardised, to take account of possible differences in the age distributions of areas being compared.

Data collection is through self-completion questionnaire, so results reflect people's own understanding of their health rather than a clinical assessment of their medical condition.

3-c See source and notes at 3-b.

The SF-36 is a standard set of 36 health status questions asking respondents about their own perception of their physical and mental health and the impact it has on their daily lives. Responses can be combined to produce summary scores for both physical and mental health. For further details, please see the Welsh Health Survey link above, or:

[www.sf-36.org](http://www.sf-36.org)

3-d Health Statistics Wales 2007 (table 1.13)

<http://new.wales.gov.uk/topics/statistics/publications/publication-archive/hsw2007/>

European standardised death rates are a way of comparing death rates for populations whose age and sex distribution vary. It eliminates from the trends the increase or decrease that may be due to changes in the age/sex structure of the population. In this case they are calculated by applying the age-specific death rates for 5 year age bands and by sex for the Welsh population in a given year to a standard European population to estimate the rates for the standard population had the Welsh age-specific rates by sex applied in that standard population.

Due to changes in the published source material, rates have been provided for deaths at all ages. In previous publications (including Members' Research Service local authority profiles) rates were given for deaths under the age of 75 only.

3-e The figure includes daily and occasional smokers.

3-f Refers to the most units drunk on any one day in the past seven days. Binge-drinking is defined as men drinking more than 8 units a day, women more than 6 units. For example, a small glass of wine is one unit, and a pint of normal strength lager is two. The proportion is based on all adults (including non-drinkers).

3-g Guidelines recommend eating at least five portions of a variety of fruit and vegetables each day. Examples of portions are one apple, or three tablespoons of vegetables.

3-h Guidelines currently recommend that adults do at least 30 minutes of at least moderate intensity physical activity (such as heavy gardening or fast walking), on five or more days a week.

3-i The Body Mass Index (BMI) is a measure of overweight and obesity, allowing for differences in weight due to height. Adults are defined as being overweight or obese if they have a BMI of 25 or more.

3-j Health Statistics Wales 2007 (tables 5.6 and 5.7)

<http://new.wales.gov.uk/topics/statistics/publications/publication-archive/hsw2007/>

General Practitioners at 30 September 2006, excluding GP registrars, GP retainers, and locums.  
General dental practitioners (principals, assistants and vocational trainees) at 30 September 2006.  
Rates are calculated using 2006 mid-year estimates of population from StatsWales table 003122.

3-k General Medical Practitioners in Wales, September 2007

<http://new.wales.gov.uk/topics/statistics/headlines/health2008/hdw20080314>

Average GP list size is the number of registered patients divided by the number of all practitioners.

3-l Health Statistics Wales 2007 (table 5.17)

<http://new.wales.gov.uk/topics/statistics/publications/publication-archive/hsw2007/>

Prescriptions in the year ending 31 March 2006.

3-m Health Statistics Wales 2007 (tables 6.2, 6.3 & 6.4)

<http://new.wales.gov.uk/topics/statistics/publications/publication-archive/hsw2007/>

Waiting lists for all specialities, at 31 March 2007.

Waiting lists reported by Local Health Boards include all those resident in the area who are waiting for NHS-funded treatment. This will include those waiting for treatment at NHS hospitals outside Wales and at private hospitals where the Local Health Board is providing funding for the treatment.

3-n Health Statistics Wales 2007 (table 8.1)

<http://new.wales.gov.uk/topics/statistics/publications/publication-archive/hsw2007/>

Data relating to in-patients and day cases are obtained from the Patient Episode Database for Wales (PEDW). Some NHS activity undertaken using the U.K. independent sector is not included in these figures.

3-o Personal Social Services Statistics Wales 2006-07 (tables 1.2, 1.22 & 2.1)

<http://www.dataunitwales.gov.uk/eng/Project.asp?nc=MNHL&id=4120>

"Looked after" is the term used to describe all children who are the subject of a care order, or who are provided with accommodation on a voluntary basis for more than 24 hours.

Child protection registers contain information on all children in the area who are considered to be suffering from or are likely to suffer significant harm.

Figures for looked after children and children on the child protection register are rounded to the nearest five. Figures for residential care include local authority and independent sector residential care.

#### Table 4: Education and Training Statistics

- 4-a NOMIS official labour market statistics  
<http://www.nomisweb.co.uk>  
Information from the Annual Population Survey, January - December 2006. The link below provides detailed definitions of the qualification levels.  
<http://www.statswales.wales.gov.uk/tableviewer/document.aspx?FileId=690>
- 4-b StatsWales (table 003451)  
<http://www.statswales.wales.gov.uk/TableViewer/tableView.aspx?ReportId=3899>  
Figures relate to the percentage of pupils in National Curriculum Year 2 who were assessed as achieving level 2 or above in each of the Core Subjects (English or Welsh first language, Science and Maths).
- 4-c StatsWales (table 003298)  
<http://www.statswales.wales.gov.uk/TableViewer/tableView.aspx?ReportId=3901>  
Figures relate to the percentage of pupils in National Curriculum Year 6 who were assessed as achieving level 4 or above in each of the Core Subjects (English or Welsh first language, Science and Maths).
- 4-d StatsWales (table 003300)  
<http://www.statswales.wales.gov.uk/TableViewer/tableView.aspx?ReportId=3903>  
Figures relate to the percentage of pupils in National Curriculum Year 9 who were assessed as achieving level 5 or above in each of the Core Subjects (English or Welsh first language, Science and Maths).
- 4-e StatsWales (table 001897)  
<http://www.statswales.wales.gov.uk/TableViewer/tableView.aspx?ReportId=3506>  
GCSE/GNVQ data relate to the examination achievements of pupils in their final year of compulsory education (i.e. aged 15 at the beginning of the academic year) at maintained schools. Figures for Wales include independent schools.
- 4-f Pupils aged 15 leaving education without a recognised qualification, 2007 (table 3)  
<http://new.wales.gov.uk/topics/statistics/headlines/schools-2007/schools-2006/hdw200612213>  
Figures relate to maintained secondary and special schools, and pupil referral units. Figures for Wales include independent schools.
- 4-g StatsWales (table 001892)  
<http://www.statswales.wales.gov.uk/TableViewer/tableView.aspx?ReportId=1892>  
A Level / equivalent results relate to the examination achievements of pupils in maintained schools, aged 17 at the start of the academic year, entering two or more A/AS levels or a vocational equivalent. Figures for Wales include independent schools, but exclude further education institutions.
- 4-h Absenteeism from Primary Schools, 2007  
<http://new.wales.gov.uk/topics/statistics/headlines/schools2008/hdw200802262>  
Figures relate to maintained primary schools. Figures for Wales include independent schools.
- 4-i Absenteeism from Secondary Schools, 2007 (table 6)  
<http://new.wales.gov.uk/topics/statistics/headlines/schools-2007/hdw200710311>  
Figures relate to maintained secondary schools and special schools with pupils of secondary school age. Figures for Wales include independent schools.
- 4-j Schools in Wales: General Statistics 2007 (tables 11.4, 11.5 & 11.6)  
[new.wales.gov.uk/topics/statistics/publications/swgs2007](http://new.wales.gov.uk/topics/statistics/publications/swgs2007)  
Results for maintained schools, at January 2007.  
Primary Key Stage 1 includes reception and mixed nursery/reception classes.

#### Table 5: Housing Statistics

- 5-a Neighbourhood Statistics, 2001 Census: Key Statistics (tables KS16, KS18, KS19, KS20 & KS21)  
<http://www.neighbourhood.statistics.gov.uk/dissemination/>  
A household comprises one person living alone, or a group of people living at the same address with common housekeeping (sharing a living room/sitting room or at least one meal a day). 'Total households' refers to households with residents; 'total household spaces' to households with or without residents.

A dependent child is a person in a household aged 0-15 (whether or not in a family) or a person aged 16-18 who is a full time student in a family with parent(s).

- 5-b Welsh Housing Statistics 2006 (table 7.2)

<http://www.dataunitwales.gov.uk/eng/Project.asp?nc=Q8F6&id=3890>

Based on decisions taken by the local authority under Part VII of the Housing Act 1996. Households are accepted as homeless by a local authority if they are eligible, unintentionally homeless and in one of the priority need groups specified in legislation.

Due to changes in the published source material, rates have been calculated per 1,000 *households*. In previous publications (including Members' Research Service local authority profiles) rates were calculated per 1,000 *population*.

- 5-c Department for Communities and Local Government Housing Statistics (table 586)

<http://www.communities.gov.uk/documents/housing/xls/table-586>

Median house prices based on Land Registry data. Excluded from the above figures are sales at less than market price (e.g. Right To Buy), sales below £1,000 and sales above £20m. The median is the value with half of all values above and half below (i.e. the middle value).

- 5-d Council Tax Levels, 2008-09 (table 1)

<http://new.wales.gov.uk/docrepos/40382/40382313/statistics/locgov/locgov2008/sdr44-2008.pdf?>

Average council tax per dwelling is calculated from all chargeable dwellings before disabled discounts and reductions are taken into account. Exempt dwellings are excluded.

## Table 6: Transport, Crime and Environment Statistics

- 6-a Neighbourhood Statistics, 2001 Census: Key Statistics (tables KS15 & KS17)

<http://www.neighbourhood.statistics.gov.uk/dissemination/>

Travel to work by car means driving (or as a passenger in) a car or van, or by taxi/minicab. Travel to work by public transport means by underground, metro, light rail, tram, train, bus, mini bus or coach.

- 6-b 2006 Road Casualties Wales (tables 3.6 & 6.8)

<http://new.wales.gov.uk/topics/statistics/publications/rcw2006/?lang=en>

Total road length is as at 1 April 2006, excluding green lanes and footpaths.

- 6-c 2006 Road Casualties Wales (tables 3.6 & 14.1)

<http://new.wales.gov.uk/topics/statistics/publications/publication-archive/rcw2005>

Volume of traffic excluding pedal cycles. Vehicle kilometre: One vehicle times one kilometre travelled. For example, 1 vehicle travelling 1 kilometre a day for a year would be 365 vehicle kilometres.

- 6-d Health Statistics Wales 2007 (table 1.15)

<http://new.wales.gov.uk/topics/statistics/publications/publication-archive/hsw2007/>

The number of deaths of people aged under 75 in each 5 year age-group is multiplied by the difference between the midpoint of the age group and 74.5. The average annual years of life lost are obtained by summing across the age groups and dividing by 5.

- 6-e Crime in England and Wales 2006/07

<http://www.homeoffice.gov.uk/rds/crimeew0607.html>

These statistics are drawn from police recorded crime figures, and have not been seasonally adjusted. Further details on crime type definitions can be found through the link above.

Previous Members' Research Service profiles covered the period January - March. Owing to changes in the source material, figures in this profile cover different crime categories and relate to the period April 2006 to March 2007. Figures on all recorded crime were obtained from the Home Office. Rates in this profile may differ from rates published by the Home Office due to revisions made to the mid-year estimate population figures.

- 6-f Municipal Waste Management Survey 2006-07

<http://new.wales.gov.uk/topics/statistics/headlines/env-2007/hdw200711211>

Data from the Municipal Waste Management Survey 2006-07 (excludes abandoned vehicles). Municipal waste is household waste plus waste from non-household sources.

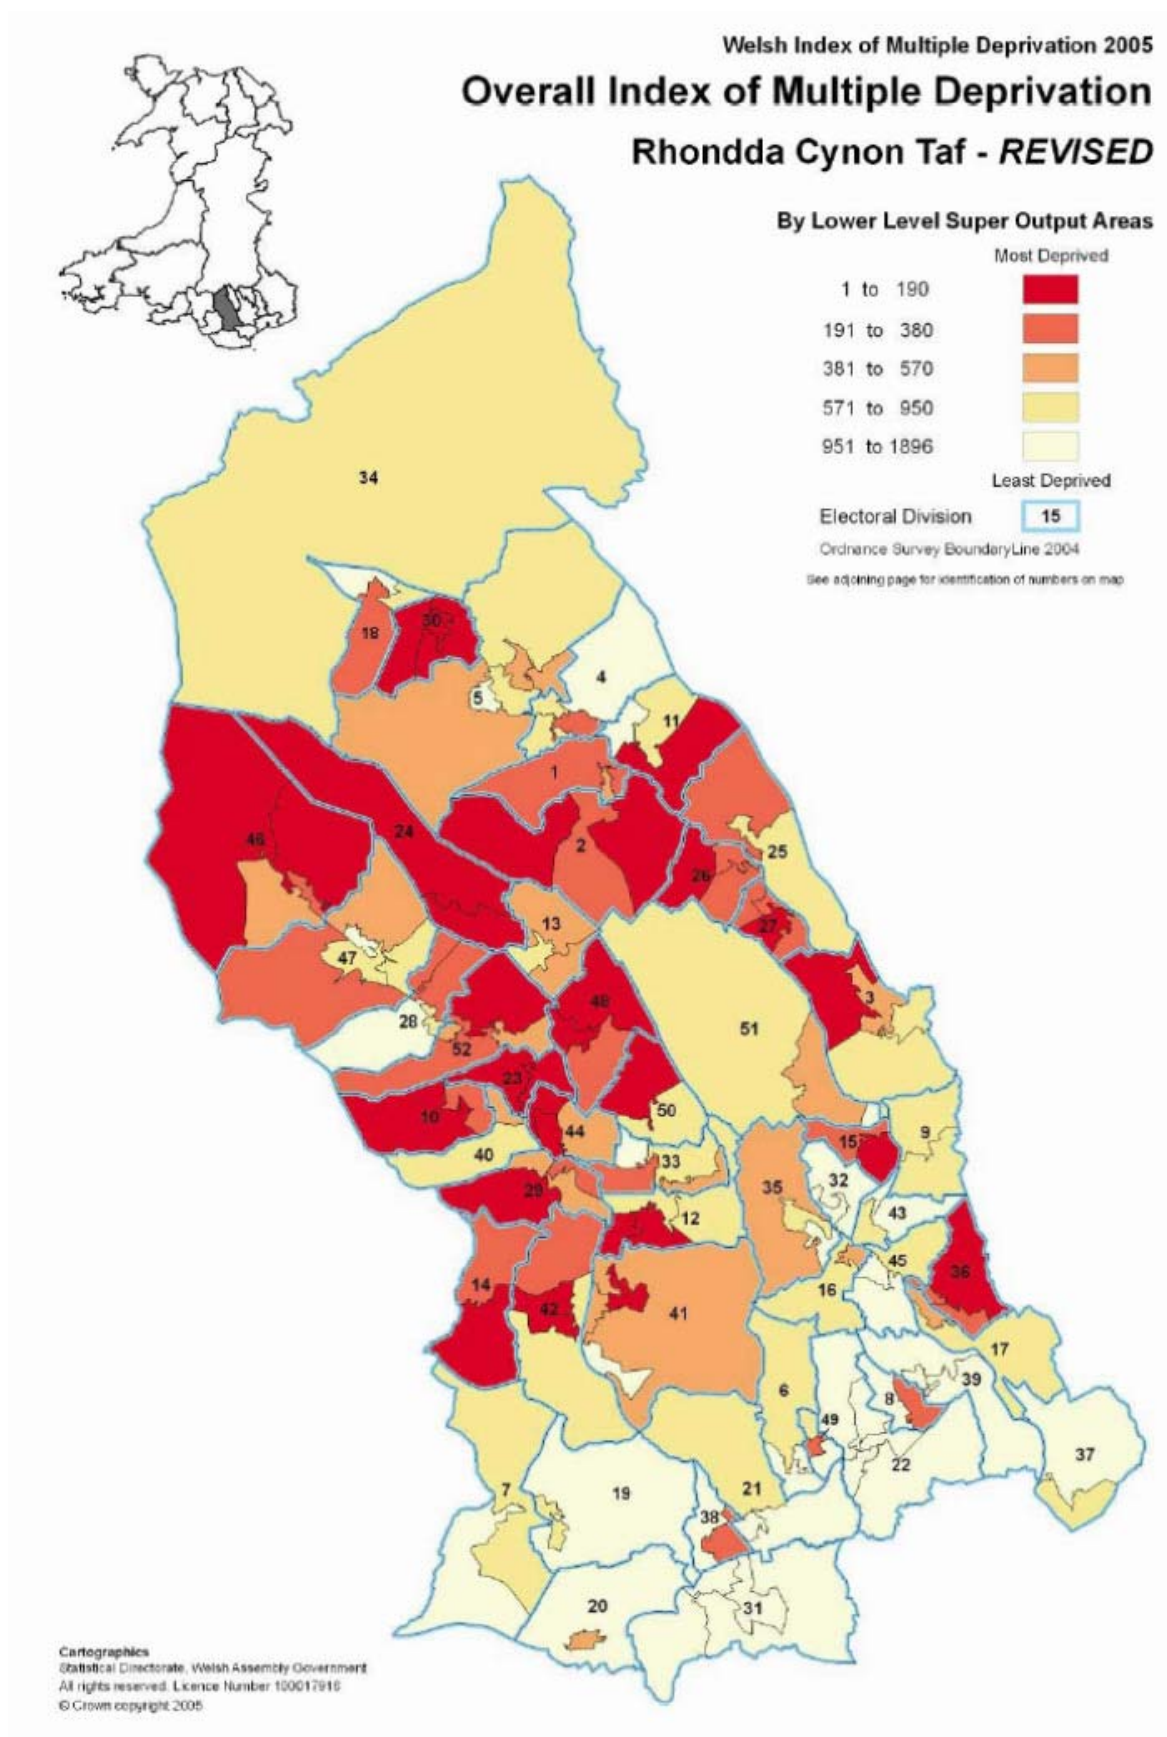

- 6-g Department for Environment, Food and Rural Affairs, River Quality Database 2006

<http://www.defra.gov.uk/environment/statistics/inlwater/iwriverquality.htm#tableslist>

These data are best estimates of monitored river water quality. River courses and catchment areas often cross local authority boundaries and therefore the quality of some river waters within a single area may be affected by factors outside the borders of the authority. The same is true to a lesser extent for Wales.

## Annex 2: Overall Index of Multiple Deprivation map for Rhondda Cynon Taff<sup>8</sup>
