20 September 2021

Dear Natasha

Thank you for your recent Written Questions asking what assessment has the Welsh Government made of the benefits of providing eye patients with access to an electroretinography scan to help prevent sight loss.

The Welsh Government is working with the ophthalmic community and a task and finish group has been formed to review our approach to uveitis and electrophysiology. The Welsh Government will review the recommendations from the task and finish group and take appropriate action.

Preventing sight loss remains a priority and every effort is being made to ensure that the services provided are sustainable, accessible and effective.

I hope you find this response helpful.

Yours sincerely

Eluned Morgan AS/MS
Y Gweinidog Iechyd a Gwasanaethau Cymdeithasol
Minister for Health and Social Services
