Christian Aid Report – Tax Havens

In recognition of the concerns of the people of Wales regarding global poverty; the National Assembly for Wales notes the report by Christian Aid and Tax Justice Network regarding the negative effect of Off Shore financial havens on the economies of developing countries; which reports that the economies of developing countries are deprived of \$500bn a year in lost revenue via tax evasion and off shore banking; further notes that of the 72 tax havens in the world, 35 are British territories or Commonwealth members; and calls on the First Minister to raise this issue with the UK Government.
