Developments of National Significance Annual Report - December 2018

Background

1. Developments of National Significance (DNS) comprise infrastructure projects of national importance. As required by section 62D of the Town and Country Planning Act 1990 (“the Planning Act”), DNS planning applications are made to the Welsh Ministers.
2. Section 62L (2) of the Planning Act requires the Welsh Ministers to determine DNS planning applications before the end of the prescribed determination period, which is 36 weeks beginning with the date on which the DNS application is accepted by the Welsh Ministers.
3. Section 62L (5) of the Planning Act provides the Welsh Ministers with the power to issue a notice to (a) suspend the running of the determination period in a particular case for a period specified in the notice and (b) terminate, reduce or extend an existing period of suspension.
4. Section 62L (8) of the Planning Act requires the Welsh Ministers to lay before the National Assembly for Wales an annual report on their compliance with the duty imposed by section 62L (2) and the exercise of their functions under section 62L (5).
5. This report comprises the annual report required by section 62L (8) of the Planning Act.

Statement

6. The Welsh Ministers determined 4 DNS planning applications between December 2017 and December 2018. All applications were decided within the statutory determination period. The Welsh Ministers used their powers under section 62L (5) of the Planning Act in the determination of 2 planning applications. Details are provided in the attached Annex.
