

The Assembly's Environmental Policies

8 February 2011

Dear

Request for Information.

Thank you for your interest in the Assembly's environmental policies – we're happy to help and hope you find the information useful.

The National Assembly for Wales has an environmental policy which covers recycling, and I enclose the Policy Statement for you to have a look at.

I am also sending you some other documents that you may find useful:

- 'Our Commitment to Sustainability – A Summary,' which provides a brief outline of how we save energy and reduce waste and water. In answer to your question, there is a recycling bin in every office.
- Annual Environmental Report 2009-10.
- The Assembly's Carbon Management Plan - this is our five year Carbon Management Plan to become a carbon neutral estate by 2015, focusing on reducing emissions, energy consumption and travel.

A company called Charlton House Catering provide catering for the Assembly. They supply the Assembly with Fair Trade tea and coffee in all areas as well as sugar, cookies, flapjacks, orange and apple juices. Charlton House also promote and support Fair Trade fortnight each year.

Yours sincerely

Alison Rutherford
