The First Minister (Carwyn Jones): We have agreed with TBI to progress towards the purchase of Cardiff Airport. This agreement enables comprehensive financial and legal due diligence work to take place on an exclusive basis between the Welsh Government and TBI. If, after this due diligence work has been completed, the Welsh Government is satisfied that this represents a sound investment then we may then proceed towards a purchase.

The due diligence process has now commenced. I will not be in a position to provide an indication of timings until the Welsh Government's external advisers have had the opportunity to examine the information in the data room, which is due to be opened on 9 January.

Derbyniwyd ateb i'w gyhoeddi ar 07 Ionawr 2013
Answer received for publication on 07 January 2013

The Deputy Minister for Children and Social Services (Gwenda Thomas): I fully recognise the importance of people receiving a timely diagnosis of Autistic Spectrum Disorder (ASD). Its diagnosis is though complex, involving multi-agency and specialist assessments including as appropriate Education and Health, Psychologists, Speech and Language Therapists, Occupational Therapists, Paediatricians and Consultants in Learning Disabilities all of whom must have the necessary expertise within this field of work. It is though important to note that although the final diagnosis may take some time to complete, care and services are provided during the assessment period based on need without diagnosis. I have previously received assurances from Pembrokeshire CC that a diagnosis of ASD is not a prerequisite for the provision of services to meet an assessed need. If people are finding this is not the case then they may wish to make a formal complaint under the local authority's complaints procedure.

Work is ongoing to improve ASD diagnosis in children and adults whilst ensuring greater consistency in the application of diagnosis throughout Wales. In partnership with the Wales Autism Research Centre we have secured grant funding from the Economic Research Council for the establishment of a network of expertise and mentoring to support children's diagnosis. Some £200,000 is being made available to support this project which started in November 2012.

A further £750,000 has been made available over three years to fund the development of the All Wales Adults Diagnosis Network. The Network will co-ordinate early identification and diagnosis and facilitate the implementation of diagnostic services in each LHB. This Network was formally launched in October 2012.

Simon Thomas (Canolbarth a Gorllewin Cymru): Pa gamau y mae'r Gweinidog yn eu cymryd i sicrhau bod gweithwyr ieuchyd proffesiynol yn cael eu hyfforddi ar ymwybyddiaeth o Anhwyllder ar y Sbectwm Awtistig yn Sir Benfro. (WAQ61881)

Simon Thomas (Mid and West Wales): What action is the Minister taking to ensure training of health professionals in Autism Spectrum Disorder awareness in Pembrokeshire. (WAQ61881)

Answer received for publication on 07 January 2013

Gwenda Thomas: Training for health professionals in Pembrokeshire is a matter for Hywel Dda LHB. We have developed a range of Autistic Spectrum Disorder awareness raising materials for practitioner groups including those working as Primary Health Practitioners and High Street Dentists and Opticians. These booklets apply throughout the age range from young children through to old age. They are proving a valuable resource to help raise awareness of autism across Wales.

An ASD e-resource has also been developed to provide advice, support and information for frontline professionals working in the ASD field. This resource continues to be updated by the ASD National Co-ordinator in response to identified need.
