Amcan Arbed Ynni ar gyfer Cymru

Noder :

Yn ôl Deddf Ynni Cynaliadwy 2003 mae'n ofynnol i'r Cynulliad ddynodi 'amcan arbed ynni' ar gyfer tai preswyl.

Argymhellodd y Pwyllgor Datblygu Economaidd y dylai Llywodraeth Cynulliad Cymru gefnogi targedau Llywodraeth y DU ar gyfer arbed ynni.

Mae Gweinidog arbed ynni Llywodraeth y DU, yr Arglwydd Whitty, wedi cadarnhau eu hymrwymiad i'r Senedd i arbed 5 megaton o garbon y flwyddyn drwy arbed ynni mewn cartrefi erbyn 2010 (a gadarnhawyd ganddynt fel gwelliant o ugain y cant).

Rydym ni o'r farn y dylai Llywodraeth Cynulliad Cymru, fel ei amcan i arbed ynni, gefnogi targed y DU yn hyn o beth a dynodi cyfran briodol i Gymru.

An Energy Efficiency Aim for Wales

We note:

The Sustainable Energy Act 2003 requires the Assembly to designate an 'energy efficiency aim' for residential accommodation.

The Economic Development Committee recommended that the Welsh Assembly Government should support the UK Government's targets for energy efficiency."

UK Government energy efficiency minister Lord Whitty has confirmed to Parliament their commitment to save 5 megatonnes of carbon per annum from household energy efficiency by 2010 (confirmed by them as equivalent to a twenty per cent improvement).

We believe the Welsh Assembly Government should as its energy efficiency aim both support this UK target and designate an appropriate proportion for Wales.
