15 December 2017

Dear Member,

I am writing to let you know of the publication today of *Science for Wales 2017*. This is a fuller consolidating report on our programmes and ambitions for science and research across Wales. The pdf report can be accessed on the Chief Scientific Adviser for Wales' pages of the Welsh Government website and a link is here:

<http://gov.wales/topics/science-and-technology/science/?lang=en>

I would encourage you to look at this, as it contains pleasing progress by the various programmes supported under '*Science for Wales*' and by our partner universities. It is also designed to be a basis for future planning and delivery of science and research input to *Prosperity for All* elements, where science can contribute to achieving its goals.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Ken', with a long, sweeping flourish above the name.
