1. Introduction

This paper gives a summary of the results, votes, shares and turnout at the fifth Assembly election, on 5 May 2016.

The electoral system

The electoral system in Wales is known as the Additional Member System. The Assembly has 60 elected members and each voter has two votes. The first vote is used to elect a local or constituency Assembly Member using the First Past the Post system. Forty Assembly Members are elected on this basis, one from each constituency.

The second vote is used to elect 20 additional members on a regional basis, to try to ensure that the overall number of seats for each political party reflects their share of the vote. The d'Hondt formula is used for deciding which parties win regional list seats. For further details please refer to the National Assembly website - ***How the Assembly is elected***, which provides an overview of the electoral system.

Data sources used for the 2016 election

The election statistics shown in this paper have been compiled from data provided by the returning officers in each local authority and data obtained from the **Press Association**. The electorate figures relate to the number of people registered and eligible to vote in the Assembly election as at 18 April 2016 and were provided by local authority returning officers and the Press Association.

This paper includes comparisons of the 2011 results with the previous Assembly election results on 5 May 2011.

During the Fourth Assembly the following changes occurred:

- Ieuan Wyn Jones stood down as AM for Ynys Mon on 20/06/2013. The subsequent by-election was won by Rhun Ap Iorwerth (Plaid Cymru, 01/08/2013)
- Antoinette Sandbach was elected as Member of Parliament at the 2015 General election and subsequently stood down as an Assembly Member. She was replaced by the next Conservative candidate on the North Wales regional list, Janet Howarth.
- Byron Davies was elected as a Member of Parliament at the 2015 General election and subsequently stood down as an Assembly Member. He was replaced by the next Conservative candidate on the South Wales West regional list, Altaf Hussein.

Changes within the fourth Assembly term are not reflected in this paper.

2. Summary of the 2016 Assembly election results

This section provides a high level summary of the results of the 2016 Assembly election. Please note that comparisons are made to the position following the 2011 Assembly election. Further details can be found in [section 3](#).

No party won an outright majority at the election. The distribution of seats is detailed in the below graph.

Figure 1 Share of seats 2016

Key results

Table 1. Summary: 2016 and changes 2011-2016

	Lab	Con	PC	LD	UKIP	Other	Total
Seats							
Constituency seats	27	6	6	1	0	0	40

Votes (thousands)	319	191	212	66	132	96	1,016
Percentage share of vote	31.4	18.8	20.9	6.5	13.0	9.4	100
Percentage point change	-5.5	-3.7	3.0	-1.5	8.5	-0.7	-

- Labour won 29 seats, down 1 from 2011 but up 3 seats compared to 2007. The only constituency seat to change hands was the Labour seat of Rhondda (now held by Plaid Cymru).
- The Conservatives won 11 seats, down 3 from 2011. This means they will not continue in the position of official opposition going into the Fifth Assembly.
- Plaid Cymru won 12 seats, up 1 from 2011 having won the only constituency to change hands (Rhondda). Plaid Cymru are now the second largest party in the Senedd and become the official opposition.
- The Liberal Democrats won 1 seat, losing 4 seats from the regional list compared to 2011. This is the Liberal Democrat's worst result in an Assembly election. They now have no regional AMs for the first time.

- For the first time in an Assembly election, a political party other than the four listed above won seats in the Senedd. UKIP won 7 seats and are now the fourth largest party.

The distribution of constituency and regional seats by party is outlined in the infographic below.

Figure 2 Seats in Assembly by constituency and region

Constituency results

The overall share of the constituency vote and changes since 2011 are detailed in this section.

- Labour’s share of the vote fell by 7.6% points compared to 2011, leading to the second lowest share received by Labour of the constituency vote. Labour’s constituency vote share is 2.5% higher than in 2007.
- The Conservatives also saw a decrease in vote share, by 3.8%. They received just over a fifth of the constituency vote share.
- Plaid Cymru were the only incumbent party to increase their constituency vote share, by 1.2%.
- UKIP did not field constituency candidates in the 2011 election. They received 12.5% of the vote.

The share each party has of the vote in each constituency is outlined on pages 4-8

Figure 3 Map of Labour vote share

Figure 4 Map of Conservative vote share

Figure 5 Map of Plaid Cymru vote share

Figure 6 Map of Liberal Democrat vote share

Figure 7 Map of UKIP vote share

Regional results

The overall share of the regional vote and changes since 2011 are detailed below.

- Minor parties and independent candidates account for almost 10% of the regional vote. The candidates included in the “other” category gain a much greater share of the regional vote compared to the constituency vote.
- Except for other candidates, all parties are within +/-3.3% of the constituency vote, suggesting that the majority of voters vote for the same party in both ballots.
- Whilst Labour receives close to a third of the votes in the regional ballot, the additional member system (mentioned in section 1) means this does not equate to the equivalent proportion of seats.
- The Liberal Democrats saw their vote share decline by 1.5% points resulting in the loss of all four of the regional seats held in the Fourth Assembly.
- All of UKIP’s seats were won at the regional level. A vote share of 13% secured 7 seats.

The infographic below shows the changes in regional seats. It also uses 2011 census data to create a ‘cartogram’, making constituencies of proportional size to their resident population, rather than geographical area.

Figure 8 Changes in regional seats and ‘cartogram’ of constituency and regional results

Seats in Assembly by Constituency and Region adjusted by resident population

Seats changing hands

The only seat to change hands was the Rhondda. The seat had previously been held by a labour candidate (Leighton Andrews) since 2003. In 1999 the seat was held by Plaid Cymru.

The seat was won at the 2016 election by Leanne Wood, leader of Plaid Cymru with 50.6% of the vote and a majority of 14.7%.

Safe and marginal seats

Majority share is the difference in the number of votes between the winning party and the second placed party.

The highest constituency majority was in Ogmore with a majority of 40.5% (9,468 votes). This seat was a Labour hold from the 2011 Assembly election. This is a decrease in constituency majority of 6.8% points compared to the 2011 election.

The lowest constituency majority was in Llanelli. This was 1.4% (382 votes) and was a Labour hold from the 2011 Assembly election. Compared to 2011 this is an increase in constituency majority of 1.1% points.

The largest increase in majority from the 2011 election was in Ynys Mon. The majority here increased from 12.2% in 2011 to 37.8% in 2016 (an increase of 25.6% points. This does not account for the by-election held 01/08/2013, which was also won by Plaid Cymru, with a majority of 42.3%. Details of the by-election can be found on the Research Service Blog [Inbrief](#)).

Disregarding the only constituency to change from one party to another (Rhondda), the biggest drop in majority share was Blaenau Gwent. Here, the majority dropped from 45.1% in 2011 to 3.1% in 2016 (a decrease of 42% points).

The median constituency majority was 16%. The map on page 11 shows constituency majorities from lowest (darkest) to highest (lightest).

This report does not review majority share at a regional level. The D'Hondt method used for the regional vote means majority share is not reached in the same way as the first past the post system and is therefore not comparable.

Figure 9 Majority share, lowest (dark) to highest (light)

Assembly Members – composition

A full-list of elected Assembly Members (AMs) is provided in [section 3](#).

Of the sixty elected AMs, 25 are women and 35 are men. This is the same as at the previous election and equates to 41.7% of Assembly members being women. In 2011 John Dixon was elected as regional Member for South Wales Central. This would put the 2011 composition as 36 men to 24 women, however, he was found to be **ineligible to become an Assembly Member** and was replaced by Eluned Parrott as Liberal Democrat list candidate for the region.

In total, 553 candidates stood for election to the Assembly in 2016 (not adjusted for candidates who stood on both the regional list and for constituency office). Of these, 362 (65.5%) were men and 191 (34.5%) were women.

Women made-up 31.5% of constituency candidates but were elected to 47.5% of constituencies.

The below map shows constituencies and regions by sex of elected candidate.

Figure 10 Constituencies and regions by sex of elected member (women in red, men in blue)

New AMs

There are 22 new AMs in the Fifth Assembly. There are 11 new constituency AMs due to incumbent AMs standing down. The only constituency to change hands went to a candidate previously serving as Regional AM for South Wales Central. Out of the 20 regional seats, there are 11 new AMs. This includes Dai Lloyd who was previously elected in the First, Second and Third Assemblies.

Turnout

The 2011 election was the highest turnout since 1999.

The definition of turnout used in this paper is the valid votes cast as a percentage of the electorate.

As at 18 April there were approximately 2.25 million registered voters in Wales. Of these individuals, over 1.02 million voted in the 5 May 2016 National Assembly elections.

Turnout was 4% points higher than in 2011 and 1% point below the highest turnout (in 1999).

The below graphic shows turnout statistics in Wales, since the Welsh Assembly Referendum in 1997.

Figure 11 Turnout in Wales since 1997

National Assembly for Wales Turnout: 1999-2016

Turnout for elections and referendums in Wales: 1997-2016

Turnout based on valid votes was 45.4%. This is lower than the 2015 General Election (65.7%) but up 4% points on the 2011 National Assembly election (41.4%).

At constituency level, Ceredigion saw the highest turnout (57.6%) of any constituency, while Alyn and Deeside had the lowest (34.6%). The highest ever constituency turnout was in Carmarthen East and Dinefwr in 1999 (60.9%). The lowest ever turnout was in Alyn and Deeside in 2003 (24.9%).

Turnout increased in every constituency except for Alyn and Deeside, where it fell by 2.3% points from 36.9% in 2011 to 34.6% in 2016. The largest increase in turnout was in the Rhondda in 2011, where it rose from 38.1% to 47.2% in 2016 (9.1%).

Figure 12 Turnout by constituency (Highest in dark, lowest in light)

HIGHEST turnout

- 1 Ceredigion **57.6%**
- 2 Cardiff North **56.8%**
- 3 Brecon and Radnorshire **56.5%**
- 4 Carmarthen East and Dinefwr **53.7%**
- 5 Vale of Glamorgan **53.1%**

LOWEST turnout

- 36 Cynon Valley **38.2%**
- 37 Torfaen **38.1%**
- 38 Newport East **37.3%**
- 39 Swansea East **35.7%**
- 40 Alyn and Deeside **34.6%**

4. Source and Notes

Data sources – votes

Where available, the number of votes cast for each party in 2016 is taken from the information provided by local authorities through Returning Officers and verified using data from the Press Association and the BBC.

Other historical election results used in this paper are based on official results provided by the **Electoral Commission**.

Data sources – electorate and turnout

Returning Officers and the Press Association have provided data relating to turnout, this has been verified using data from the BBC.

Turnout has been calculated as valid votes as a percentage of the electorate. Spoilt ballots or rejected ballots are not included in the calculation.

Key to party codes

Each registered part has a short code as shown below. In many tables within this publication parties other than Conservative, Labour, Liberal Democrat, Plaid Cymru and UKIP are combined in grey as 'other' parties, with short code 'oth'.

Code and colour	Party
AWAP	Abolish the Welsh Assembly Party
AWLI	Association of Welsh Local Independents
Com	Communist Party of Britain
Con	Conservative
CPW	Welsh Christian Party
FTC	Freedom to choose
GP	Welsh Green Party
